
IN THE FIFTH DISTRICT COURT - ST GEORGE DEPARTMENT

IN AND FOR UTAH COUNTY, STATE OF UTAH

AFFIDAVIT FOR SEARCH WARRANT

STATE OF UTAH)

:ss

County of Utah)

The undersigned affiant, Detective MICHAEL GEORGE CARLE of Utah County Sheriff's Office, upon an oath or written affidavit subscribed under criminal penalty, declares:

That your affiant has reason to believe:

THAT

On the premises known as 894 Cimarron Dr Washington, UT 84780, further described as The home is a single family home located on Cimarron Dr. The home faces South on has gray stucco siding. The home features a 3 car garage with light gray doors. The garage is on the East side of the home and has 3 windows above the garage. To the left of the garage doors are the numbers "894" written in black numbers. The front door is to the west of the garage and is led to be a sidewalk. There is a shed to the north-east of the home in the back yard;

In the City of Washington, County of Utah, State of Utah, there is now certain property or evidence described as:

Smith & Wesson M&P pistol and holster, as well as anything related to the rifle used in this shooting, firearm components used to alter the rifle barrel or other componets, ammunition, specifically 30-6 ammunition that is relevant to that involved in the shooting, and gunsmithing or engraving tools related to this investigation. Search warrant does not authorize law enforcement to seize any firearm in the home but rather the pistol described and any other componet/equiptment that is directly related to the rifle used in the shooting.

Photographs of the exterior and interior of the house, and videos of the exterior and interior of the house. Any trace/forensic evidence and physical evidence that is located inside and /or on the residence. Trace/forensic evidence may include but not be limited to fingerprints, hair, fibers, and biological fluids such as blood. Physical evidence may include but not be limited to receipts, documents, clothing, backpacks, electronic devices, recorded data, video /photographic surveillance and identification cards. Any other items, clothing, material, or shoes in the house that may contain evidence related to the homicide investigation.

Specific clothing items include the following: a blue colored hat, sunglasses, a long sleeve black shirt with a picture of an American flag and an eagle printed on the shirt, dark colored jeans, and white/gray shoes with white colored shoelaces (the shoes appear to be consistent with Chuck Taylor/Converse style shoes).

and that said property or evidence:

Was unlawfully acquired or is unlawfully possessed;

has been used or is possessed for the purpose of being used to commit or conceal the commission of an offense; or

is evidence of illegal conduct.

Affiant believes the property and evidence described above is evidence of the crime or crimes of 76-5-202- Aggravated Murder.

The facts to establish the grounds for issuance of a Search Warrant are:

OFFICER TRAINING AND EXPERIENCE

I am currently assigned to the Special Victims Unit for the Utah County Sheriff's Office. I have been through the POST training academy and have been trained and certified as a Utah Peace Officer since April 2015, starting with Lehi Police Department for 6 years which consisted of approximately 3 years on patrol with another approximately 2 and a half years in the special victim's unit. I then moved to work for the Utah County Sheriff's Office and in my first 3 years there, I was assigned to the law enforcement patrol unit. In my time on patrol, I have investigated a wide variety of cases including DUI's, drugs, domestic violence, thefts, frauds, assaults, sex offenses, crimes against children as well as undercover work within the special victim's unit and as part of the FBI Child Exploitation Task Force. During my time as a police officer, I have been trained and certified as a drug recognition expert and have done dozens of drug evaluations. I have had several DUI arrests both involving alcohol and drugs.

While working for Lehi Police Department in the special victim's unit I worked crimes against children with an emphasis in online sex crimes. I was a task force officer with the FBI Child Exploitation Task force and started working with them in February 2018 through the rest of my time with Lehi PD. During that time, I have worked and been part of hundreds of arrests for online crimes against children. I have also been the lead detective on several sex crimes, property crimes and all manner of crimes against people such as attempted homicide.

I am currently assigned to the Special Victims Unit (SVU) with the Utah County Sheriff's Office and am primarily assigned to work cybercrimes involving the sexual exploitation of minors. During my time as a sworn officer, I have investigated thousands of cases which have led to successful convictions in the court system. I have been trained as a forensic interviewer and have been to several interview and interrogation trainings and applied what has been taught in my investigations. As an SVU detective I have investigated several cases involving the sexual exploitation of children, online enticement of children and even homicide. In my current assignment I am investigating online crimes against children. I have also attended and completed the training at the ICAC bootstrap academy. I have since

been approached by the FBI Child Exploitation Task Force and was reinstated as a Task Force officer with them. My experience in investigations has been refined and is continually improving as I further my career.

I have investigated, domestic violence cases, stalking cases, and many cases involved in threats both in person and online through emails, texts, and social media. I have investigated homicides, attempted murder, aggravated assault, electronic communication harassment and similar offenses. In my career, personal life, and experience, I have learned that people store a wide range of material on their cell phones. I have learned that when people are threatened, there is often a record of those threats on their phones. This record may take the form of screenshots of public or private communications like social media posts, cached websites, records of websites, social media, and other apps which show content accessed by the user, personal notes, emails, texts, and other communications which describe the threats the user has received to others like loved ones, associates and people who can help protect the threatened person.

I have investigated cases where surveillance footage has captured images of suspects, crimes, and evidence. Many businesses have video surveillance systems which have been helpful in identifying the facts of the cases I have investigated and the identities of witnesses and suspects.

On September 10, 2025, Charles James Kirk was at the Utah Valley University (UVU) campus in Orem, Utah, for a political event. Mr. Kirk is a conservative political activist who was scheduled to speak at an event in the courtyard area on the UVU campus. The courtyard area is to the west of the Losee Center building. According to video recordings, Charles was wearing a white T-shirt and dark pants, sitting under a white canopy in a courtyard of the campus facing to the east. Charles was holding a microphone and speaking to a crowd. While speaking into the microphone, a loud gunshot was heard at approximately 1223 hours, and Charles appeared to have been hit in the neck. Blood was seen coming out of the left side of his neck as he fell over to his left. Charles was transported to the Timpanogos Regional Hospital in Orem. Charles was pronounced deceased at the hospital. Charles' body was transported to the Office of the Medical Examiner, where an autopsy was performed on the body. According to information obtained from the police officer who attended the autopsy, Sergeant Barrett with the Utah State Bureau of Investigation, Dr. Guarjado with the Office of the Medical Examiner concluded the autopsy and explained that he was going to certify that Charles Kirk's cause of death was a homicide caused by a gunshot wound.

Investigators reviewed the Utah Valley University surveillance cameras. While reviewing the surveillance cameras, investigators observed an individual on the rooftop of the Losee Center building on the UVU campus at the time of the shooting. Over the course of this investigation, investigators were able to later identify this individual as Tyler James Robinson and will hereafter, be referred to as "Robinson". Based on surveillance camera footage, Robinson appears to be a white male with dark colored hair, wearing a blue colored hat, sunglasses, a long sleeve black shirt with a picture of an American flag and an eagle printed on the shirt, dark colored jeans, and white/gray shoes with white colored shoelaces (the shoes appear to be consistent with Chuck Taylor/Converse style shoes). Robinson is also carrying a dark colored backpack on his back. Robinson walks with a distinctive gait. Prior to the shooting, Robinson appears to walk with a stiff right leg and at a relatively slow pace. Robinson's ability to bend his right leg appears to be restricted. The Investigators were able to track Robinson's movements on the UVU campus, starting at approximately 1150 hours on 9/10/2025.

At approximately 1150 hours, a UVU surveillance camera first captured Robinson walking across a grassy area north of Campus Drive at approximately 800 West. Robinson walks south through the parking lot and approaches a pedestrian tunnel that runs underneath Campus Drive. Robinson pauses briefly before entering the tunnel. Before entering the tunnel, Robinson pauses at the top of the stairs and pulls out what appears to be a cellphone from his right pocket using his right hand at approximately 1153 hours. Robinson eventually puts what appears to be a cellphone back in his right pants pocket using his right hand. Robinson walks down the stairs and noticeably keeps his right leg mostly straight while walking down the stairs into the tunnel. Robinson walks through the tunnel and into the parking garage area. Robinson walks up the stairs to the second level of the parking garage. While walking up the stairs in the parking garage, Robinson continues to keep his right leg straight. As Robinson approaches the landing on the stairs between the first and second floor, it appears as though there is something bulging out from Robinson's waistband area as he walks up the stairs. The bulge appears to be underneath Robinson's black shirt and on the right side of Robinson's waistband area.

At approximately 1202 hours, Robinson is observed walking on the north side of the Losee Center building, walking with the same gait as observed earlier. Robinson walks south on the sidewalk on the east side of the Losee Center building. Robinson enters the Losee Center building through a set of doors on the southeast corner of the Losee Center building. At approximately 1215 hours, Robinson is observed walking up the stairs that lead to the common area adjacent to the Losee Center building. Robinson walks to a short concrete wall that separates the common area from the rooftop of the Losee Center building. At approximately 1217 hours, Robinson climbs over the short wall and appears to crouch down on the north side of the wall on the rooftop. At approximately 1222 hours, Robinson stands up and starts running across the rooftop of the Losee Center building. Robinson runs to the west side of the rooftop and appears to scoot along the rooftop area as he gets closer to the edge of the rooftop. At approximately 1222 hours, Robinson lays down in a prone position near the edge of the rooftop and appears to be facing west, in the direction of the courtyard area.

The rooftop of the Losee Center building overlooks the courtyard area where the event featuring Charlie Kirk was taking place. The Losee Center building is east of the courtyard area. At approximately 1223 hours, Robinson stands up suddenly from the edge of the rooftop and sprints north on the rooftop of the Losee Center building. This sprinting motion is in stark contrast to the slow and restricted gait observed by Robinson in earlier surveillance camera footage. Robinson runs to the northeast corner of the Losee Center building and approaches the edge of the rooftop. Robinson places a dark colored item on the rooftop and proceeds to lower himself off the rooftop. Robinson drops off the rooftop onto the grass below. Robinson runs north near the parking lot to the east of the Losee Center. At approximately 1224 hours, Robinson runs north across the Campus Drive road.

The area to the north of Campus Drive road where Robinson crossed over is a grassy area with trees on the edge of the UVU campus. Investigators discovered a bolt action rifle wrapped in a dark colored towel. The rifle was determined to be a Mauser Model 98, .3006 caliber bolt action rifle. The rifle had a scope mounted on top of it. Investigators noted inscriptions that had been engraved on casings found with the rifle. Inscriptions on a fired casing read "Notices Buldge OWO what's this?". Inscriptions on the three unfired casings read: "hey fascist! CATCH! (up arrow symbol, right arrow symbol, and three down arrow symbols)". A second unfired casing read "O Bella ciao, Bella ciao, Bella ciao, Ciao, ciao!". A third unfired casing read "If you read This, you are GAY Lmao".

Investigators documented a shoe impression on the northeast corner rooftop edge of the Losee Center building. This shoe impression was located in the vicinity where Robinson climbed down from the rooftop. The shoe impression is consistent with the shoe sole characteristics of a Converse/Chuck Taylor shoe.

While processing the crime scene, evidence technicians were able to identify the locations where Robinson, through physical contact, had left potential biological evidence. Touch DNA transfers when skin cells, from touch or sweat, are shed onto an object during direct or indirect contact, and it can also transfer from one person to another. This type of DNA evidence comes from epithelial cells, or skin cells, that contain cellular DNA and can be recovered from a wide range of surfaces with the use of forensic DNA techniques. This evidence was collected in order to obtain a potential DNA profile for Robinson. Evidence technicians also identified fingerprints and a smeared palm print in the vicinity of the northeast corner rooftop edge of the Losee Center building where Robinson dropped off the rooftop to the ground below.

On 9/11/2025, Sheriff Smith with the Utah County Sheriff's Office received a phone call at approximately 2004 hours from Sheriff Brooksby with the Washington County Sheriff's Office. According to Sheriff Brooksby, he had received a phone call from a former deputy who had previously been employed with the Sheriff's Office. The former deputy, identified as Mike Mitchell, explained that he had received a phone call from the father of Tyler Robinson. Mike Mitchell explained that Tyler Robinson confessed to his father that he was the shooter at Utah Valley University. Tyler Robinson's parents worked with law enforcement to arrange a way for Tyler Robinson to turn himself in without a confrontation with law enforcement. Mike Mitchell coordinated with law enforcement to have Tyler Robinson meet with law enforcement at the Washington County Sheriff's Office. Tyler Robinson arrived at the Washington County Sheriff's Office accompanied by his parents at approximately 2226 hours. Tyler Robinson was not wearing clothing consistent with the clothing observed on surveillance cameras during and around the time of the incident at UVU. According to a photo provided to me by Agent Davis with the Utah State Bureau of Investigation, Tyler Robinson arrived at the Washington County Sheriff's Office wearing a dark colored hat, a maroon-colored T-shirt, jeans, and white/gray colored Converse style shoes. Tyler Robinson's mother relayed to law enforcement that Tyler Robinson had expressed having suicidal ideations. Sergeant Elsholz with the Utah State Bureau of Investigation provided me with a photograph of Tyler Robinson's Utah driver license. The driver license was taken from the person of Tyler Robinson by Agent Davis with the Utah State Bureau of Investigation.

On 9/12/2025, at approximately 0100 hours, FBI Special Agent Lange conducted an interview with the boyfriend of Tyler Robinson at the Washington County Sheriff's Office. The boyfriend was identified as Lance Twiggs. During the interview, Lance showed investigators text messages between Tyler Robinson and himself. The following is some of the content of those messages between Tyler Robinson and Lance Twiggs. First message (Tyler): "I am still ok my love, but am stuck in orem for a little while longer yet". Second message (Tyler): "shouldn't be long until I can come home, but I gotta grab my rifle still. To be honest I had hoped to keep this secret till I died of old age. I am sorry to involve you". Third message (Lance): "you weren't the one who did it right????". Fourth message (Tyler): "I am, I'm sorry". Fifth message (Lance): "I thought they caught the person?". Sixth message (Tyler): "no, they grabbed some crazy old dude, then interrogated someone in similar clothing". Seventh message (Tyler): "I had planned to grab my rifle from my drop point shortly after, but most of that side of town got locked down. Its quiet, almost

enough to get out, but theres one vehicle lingering”.

Further information from the messages between Lance and Tyler Robinson showed that Robinson had an old room at his parents’ house. The following are messages from Lance to Robinson. First message (Lance) “what do i do with all your stuff?” Second message (Tyler) “leave the room alone, the feds will search it top to bottom for certain. then work with my family to sort it out, what goes where and such” Third message (Lance) “how do I contact them?” Fourth message (Tyler) my moms number is 435 682 6288. The live at 894 w cimarron dr Washington keep my mom out of my wooden box, for her sake” Fifth & sixth message (Lance) “i will try” “is there any way you don’t go to prison?” Seventh message (Tyler) “I highly doubt it. I will update you as much as I can. If you need a place to stay im sure my family would have you in my old room”

It was found that Robinson's parent's address is located at 894 Cimarron Dr Washington, UT 84780. The above referenced messages show that Robinson had a room at his parents and made reference to a wooden box with some of Robinson’s belongings that may be there. Through my training and experience, it is common for young adults to keep/store belongings at their parents homes. Special agent C. Cox interviewed Robinsons father Matthew Robinson regarding his involvement in this case. Matthew reported that Robinson had traveled to Matthew’s home where he had confronted Robinson. Robinson had admitted to his parents that he had a pistol concealed on his person but was not willing to give it to Matthew. Matthew told agents that when Robinson was giving his mother a hug, he observed the concealed firearm and quickly pulled it away from Robinson’s person. That firearm is reported by Matthew to be a Smith & Wesson M&P, 45 caliber handgun in a concealed carry holster. Matthew left the firearm on a chair in his “gun room” which was described as a room where multiple gun safes and firearm materials were stored.

Matthew also reported that Robinson had moved throughout the home freely but he was trying to make sure Robinson wasn’t getting anything out of the gun room. He had gone into the bathroom, main living area and kitchen and also made mention of his old bedroom that was now converted to an exercise room. Matthew reported that Robinson had belongings in the home that he would periodically retrieve from the home. The closet in the exercise room had clothing and other personal items belonging to Robinson. Matthew reported to agents that the rifle used in the shooting was a gift to Robinson from his grandpa that Matthew was storing for him in his home until January of 2025. Matthew gave the rifle to Robinson in January and told agents that he believed he had also gave him some 30-6 ammunition for it. Investigators reported seeing ammunition throughout the area of the gun room. Investigators also observed ammo reloading equipment. I know based on my training and experience that a safe time to engrave on a bullet casing would be when there is no gunpowder or bullet in the casing. This could be done when reloading the ammo. Matthew also reported that Robinson is free to come over to the home and comes over weekly to visit and for dinners.

Based on my training and experience, individuals involved in crimes of this nature, try to change clothing and then conceal or destroy clothing so they are not recognized. It should be noted that in interviewing Mike Mitchell, Mike stated that while he was talking to Robinson, Robinson told him that he had disposed of the clothing at various places along the way back home. I know based on previous cases, young adults often keep belongings at parents’ homes and often have items of interest including clothes, writings of interests or other belongings that can lead to an understanding of their mental state. I know based on my training and experience that individuals often hide items used in the commission of crimes such as in locations they are comfortable with and where they believe they will be

safe and away from probable searches.

On 9/12/2025 while executing a search warrant at Robinson's residence at 3419 South River Road Unit 73 St. George, Utah 84790, while searching in the kitchen area, a blue backpack was located. While searching the backpack, investigators observed a PVC pipe that is approximately an inch in diameter. The pipe had PVC endcaps with black tape wrapping around the PVC. There were also port holes in the PVC. Investigators also observed wires throughout the bag with the PVC pipe. They also observed small "rasberry pie" computer chips in the bag. These are commonly used to activate or set off explosive devices. The bag and surrounding area also had wire cutters, hammers and other tools. Investigators also observed shell casings in Robinson's apartment that were both spent casings and unspent casings. One of the casings had been engraved with the writing "Test Shot" engraved, similar to that of those located in and with the rifle used in the shooting of Charles Kirk. This again, to be done safely likely would be done prior to reloading the ammunition to prevent accidental discharge.

Due to the aforementioned facts, I believe there is probable casue to search the listed residence and collect the referenced items in the Items to be seized section including the Smith & Wesson M&P pistol and holster, as well as any componet/tool related to the rifle used in this shooting, firearm components used to alter the rifle barrel or other componets, ammunition, specifically 30-6 ammunition that is relevant to that involved in the shooting, and gunsmithing or engraving tools related to this investigation as well clothing items include the following: a blue colored hat, sunglasses, a long sleeve black shirt with a picture of an American flag and an eagle printed on the shirt, dark colored jeans, and white /gray shoes with white colored shoelaces (the shoes appear to be consistent with Chuck Taylor/Converse style shoes) and other listed items.

WHEREFORE, your affiant prays that a Search Warrant be issued for the seizure of said items in the daytime.

APPLICATION TO SEAL SEARCH WARRANT AND RELATED DOCUMENTS:
